

School of
Health Sciences

Join us for the Winter
School 2023!

**Are you a health or social work student?
Do you want to experience interprofessional
collaboration? Our Winter School 2023 offers
the unique opportunity to meet Swiss and
international students to learn more about
interprofessional collaboration within the
health and social system. Together, students
participate in role-play activities, study visits,
group projects and interactive lectures.**

When/Where

January 9 – February 3, 2023
ZHAW Health University in
Winterthur, Switzerland

Aims

Future health professionals and social workers gain new competences in dealing with complex and challenging interprofessional situations.

Target audience

International health and social work students join the ZHAW BSc students in the fields of:

- Midwifery
- Nursing
- Occupational Therapy
- Physiotherapy
- Health Promotion & Prevention
- Social Work

Courses are primarily aimed at bachelor level, but master level students are welcome to participate.

Language

Some of the courses are in English, some in German. B1 – B2 language level is required.

Credits and student work

For each course, students will gain 2 ECTS credits subject to 50–60 hours of student work. Full-time attendance during the 5 course days and successful end of week assessment are required.

Course format

Some courses are held online and others on-site in Winterthur.

Cost

EUR 50.00 per full-time course.
